International Office: Imprint (www.heidelberg-university-hospital.com)

Helmut Baudermann, Head of IT Department, Thoraxklinik at University Heidelberg

helmut.baudermann@thoraxklinik-heidelberg.de

Data Protection

In case of accessing the general information of the Thoraxklinik, information about user access will exclusively be stored in anonymous form in the log files. Only the fact of accessing and the document accessed will be stored. A reference to the identity of the user is in all cases excluded. No single user profile will be created, also not in pseudonym form.

Third Parties

You will find many links (=cross references) on the pages of Thoraxklinik, also in the form of banners, to third party websites. These are labeled as such. Following the activation of these links a new window will be opened and the user will be transferred to the offer of the third party.

In the case of direct or indirect references to external internet pages which are outside the area of responsibility of the hospital, liability will exclusively come into effect in the case of Thoraxklinik having knowledge of its content and were it to be technically possible and acceptable for it to prevent the use in the case of illegal content. The Thoraxklinik therefore states explicitly that, at the time of the link being put in place, the corresponding pages were free of illegal content. It has absolutely no influence over the current and future form and over the content of the linked/connected pages of these third parties. It therefore explicitly distances itself from the content of all linked/connected pages which are changed following the link being put in place.

Liability Exclusion

1. Content of Online Offer

The internet portal of Thoraxklinik makes offers varied and high quality information available to patients and other interested parties.

Thoraxklinik accepts no responsibility for the up-to-dateness, correctness, completeness or quality of the information made available. Claims of liability against Thoraxklinik which are based on damage both material

International Office: Imprint (www.heidelberg-university-hospital.com)

and non-material, which arise due to the use or non-use of the information presented or the use of erroneous and incomplete information are generally excluded, so long as there was no provable deliberate, or grossly negligent fault on the side of Thoraxklinik.

All offers are non-binding and without obligation. Thoraxklinik explicitly reserves the right to change, supplement or delete, or to temporarily or permanently remove parts of pages or the entire offer without prior notice.

2. References and Links

In the case of direct or indirect references to external internet pages ("hyperlinks") which are outside the area of responsibility of Thoraxklinik, liability will exclusively come into effect in the case of Thoraxklinik having knowledge of its content and were it to be technically possible and acceptable for it to prevent the use in the case of illegal content.

Thoraxklinik explicitly states that at the time of setting up the link, there was no recognizable illegal content on the pages. Thoraxklinik has absolutely no influence over the current and future form, contents or authorship of linked/connected pages. It therefore explicitly distances itself from the content of all linked/connected pages which are changed following the link being put in place. This statement is valid for all of the links and references which we have within our internet offer and also for external entries in guestbooks, forums, link lists, mailing lists set up by Thoraxklinik, as well as for all the kinds of database, whose content can be modified by external write access. For any illegal, incorrect or incomplete content and in particular for the damages arising from the use or misuse of information provided via these means, solely the provider of the site linked to is liable, and not the provider of the site which merely provided links to the respective publication.

3. Copyright (originator and trademark copyright)

The Thoraxklinik aspires to take note of the copyright conditions of all images, graphics, sound files, video sequences and texts in all of its publications, to make use of its own images, graphics, sound files, video sequences and texts or to apply graphics, sound files, video sequences and texts under general publication license.

All brands and trademarks included in the website which may be copyright protected by third parties are subject to the applicable trademark copyright and the ownership rights of the registered owner. Sheer mentioning should not be reason to assume that these trademarks are not protected by any third party's rights! The copyright of any published objects that have been generated by Thoraxklinik themselves, remains solely with the author of the websites. A publication or usage of these graphics, sound files, video sequences or parts in other electronic or print publications is not permitted without explicit approval by Thoraxklinik.

4. Data Protection

As far as there is a possibility to enter personal or business data (email addresses, names, addresses), then these data are always given completely voluntarily by the user. Usage of and payment for all offered services may - as far as technically feasible and reasonable - also occur without the provision with this data or by applying anonymous data or a pseudonym. The usage of contact data provided within the scope of the imprint, such as postal addresses, telephone and fax numbers or email addresses by third parties in order to provide

International Office: Imprint (www.heidelberg-university-hospital.com)

information that has not been specifically asked for, is not permitted. The rights for legal steps against the publishers of so called spam mail, breaching this rule, are explicitly reserved.

5. Legal effectiveness of this disclaimer

This disclaimer is to be regarded as part of the internet content of the site that linked to this page. Provided that specific formulations of this text no longer comply with valid law, or do not comply with it completely, the remaining parts thereof and the content and validity remain untouched.
